MONTANA LABOR MARKET

Monthly Review of
EMPLOYMENT OUTLOOK, LABOR SUPPLY, LABOR DEMAND, CURRENT EMPLOYMENT

MONTANA STATE EMPLOYMENT SERVICE

Division of Unemployment Compensation Commission of Montana

Edgar H. Reeder, Chairman

Rex F. Hibbs, Commissioner

UCC Building — P. O. Box 1728 — Helena, Montana James J. Flaherty, Commissioner

FL. 246

OCTOBER, 1963

Industrial Employment Exceeds 180,000 for First Time

Non-farm employment in Montana continues to set new records. Estimated industrial employment in Montana at mid-September was 182,200 wage earners. Revised estimates based on more complete records hiked the June employment figure to 182,900, the July total to 182,300, and the August figure to 181,800. For the first time of record non-farm employment in Montana passed the 180,000 mark. These latest figures point up the fact that Montana's economic growth, although not spectacular, has been sure and steady. Favorable weather, excellent yields of farm crops, a continuing growing construction agenda, good volume of main street business, uptrends in lumbering and mining, all weave into a healthy pattern of labor market activity during Montana's Indian summer.

A Trend Reversed

Traditionally employment in Montana always reached its highest peak during the month of August. Seasonal declines always caused employment to drop from August to September. This year tradition was ignored as September employment climbed 400 over the August total. An over-the-year gain of 3,600 wage earners was also recorded over September of last year. September employment this year exceeded the average September employment of the past 10 years by 9,300 wage earners.

Seasonal Declines Below Normal

Some normal seasonal declines were evident in a few industries during September but these were outweighed by

increased hiring in others. The seasonal change was most marked in trade industries as employment dropped 1,000 from August. The end of the tourist season and closure of some facilities at national parks and resort areas were the chief factors responsible for this decline. Other industry groups fared better. Contract construction continued to be a most active force on the labor market scene. Construction payrolls, at 16,200, were up 300 from August and 1,000 higher than September of last year. Government employment advanced by 1,000 from August as a gain of 2,000 at state and local levels overpowered a seasonal drop of 1,000 in federal employment. This increase was chiefly at the state's educational facilities. An over-the-year increase of 2,600 in government employment is shown with 300 at the federal level and 2,300 at state and local units. Trends in manufacturing were mixed. Employment in the non-durable goods group was up by 400 from August but a deficit of 100 is shown in the durable goods group. Most of the gain was in food processing. Total manufacturing employment, at 23,100, remained unchanged from last year. The service industry groups chalked up a gain of 100 over both last month and last year.

Three Down 100 Each

Over the month declines of 100 each occurred in mining, transportation, utilities and communications, and finance, insurance, and real estate. Employment in all these industries was up moderately from September a year ago.

Active Seasonal Factors

This is the time of the year when sugar beets, potatoes, and Christmas trees make about 3,000 additional seasonal jobs. Sugar beet refineries at Billings, Hardin, Sidney, and Missoula will operate for season runs of from 60 to 120 days. The Christmas tree harvest is now underway in the northwestern section of the state; about 1,000 workers will be employed in the harvest and manufacturing activities. The potato harvest also now underway is providing good yields throughout different regions of the state.

A Special Week—Oct. 6-12

Once a year the nation observes "Hire the Handicapped" week. It is a time to reflect that it is ability not disability that counts. Experience has proven that the handicapped worker is an efficient, dependable, safe, and loyal employee. During the fiscal year 1963, local offices of the Montana State Employment Service placed 2,178 handicapped workers in jobs throughout the state.

Insured Unemployment Drops

Insured unemployment in Montana at 1.9 per cent was among the lowest in the nation. The national average was 3 per cent. Unemployment claims continued to drop seasonally during September and recorded the lowest total of the year for the week ending October 4th with 2,674 claims.

LABOR TURNOVER RATES IN MANUFACTURING AND MINING INDUSTRIES

(per 100 employees)

(Compiled in cooperation with U.S. Bureau of Labor Statistics)

INDUSTRY	ACCESSION RATE						SEPARATION RATE								
	Total			New Hire			Total			Quit			Layoff		
	1) Aug. 1963	2) July 1963	Aug. 1962	Aug. 1963	July 1963	Aug. 1962	Aug. 1963	July 1963	Aug. 1962	Aug. 1963	July 1963	Aug. 1962	Aug. 1963	July 1963	Aug. 1962
All Manufacturing	5.7	4.1	4.8	4.5	3.2	3.9	6.3	4.0	*8.1	3.8	1.6	3.5	1.6	1.5	3.5
Durable Goods	6.7	4.7	5.5	5.4	3.6	4.3	7.4	4.9	*9.8	5.0	1.7	4.3	1.4	1.8	4.1
Primary Metal	5.4	4.7	3.4	.9	.4	.3	6.5	6.3	*14.3	1.2	.4	2.4	4.1	3.7	10.3
Nondurable Goods	3.7	2.6	3.2	2.6	2.2	2.8	3.9	2.0	4.3	1.4	1.2	1.8	1.8	.6	2.3
All Mining	8.8	7.2	6.3	5.1	4.0	3.2	8.4	7.5	*12.1	5.6	3.5	4.1	.9	.6	6.3
Metal Mining	7.6	7.2	5.5	3.3	2.3	1.0	6.9	6.8	*17.0	4.8	3.8	3.2	.7	.4	11.6

*High separation rates (1962) in Mining and Primary Metal Industries are due to secondary effects of Teamsters' Strike with Anaconda Company. The secondary effects of this strike are also reflected in the separation rates for "All Manufacturing" and "durable goods."

Along the Hiring Line— Field Summary September 1

ANACONDA, Deer Lodge, Philipsburg—(275 jobseekers, 145 new, 154 men, 121 women). Fall employment maintained on most outdoor projects with favorable weather conditions. Public work hiring for forest service projects accounted for nearly half of Sept. job placements. Railroad hiring up as track repair crews expanded. Shelter construction at 1,950, down 200 from mid-July; layoffs of 100 workers per month expected to Jan. 64.

BILLINGS, Columbus, Hardin, Laurel, Red Lodge, Roundup—(1,786 jobseekers, 376 new, 1,043 men, 743 women). Employment in industry and agriculture keeps at high seasonal levels. Construction on good schedule as work progresses on Yellowstone Dam, 11 major highway projects, oil refinery expansion and pipeline, new federal building, and several public works projects, among others. Moderate upswing noted in labor demand for main street establishments; some shortages of clerical workers developed during the month. End of sweet corn harvest and canning idled 170 plant workers and 60 Indians who worked the fields. Start of sugar beet refining on Sept. 25 made 1,100 jobs at Billings and Hardin.

BOZEMAN, Ennis, Three Forks, Trident—(216 jobseekers, 239 new, 88 men, 128 women). Good employment upswing occurred in construction and trade industries during Sept. Construction employment shows 65% increase over last year. Trends in manufacturing remain stable with very little new hiring. Job orders for some service workers go begging due to lack of applicant interest. More machines on the farm front caused a 20% drop in farm labor demand from last year.

BUTTE, Virginia City, Whitehall—(666 jobseekers, 409 new, 433 men, 423 women). Metal mines hiring continues as new waste concentrator plant prepares to go into full production. Construction employment drop seasonally as some projects near completion. Trade and service volume held to good trends. Opening of new shopping center made more new jobs. Farm labor demand at near standstill.

CUT BANK—(152 jobseekers, 60 new, 33 women). Industry job orders exceeded last year by 100% due to expansion of public works projects, new schools, and increased construction. Full employment of 400 expected in the near future. Main street hiring steady pace and comparable to last year. Farm labor demand fairly good.

DILLON—52 jobseekers, 67 new, 27

Employment

Industrial Employment	Sept. 1963	Aug. 1963	Sept. 1962	Sept. Avg. 1954-63
New Job Applicants	4,437	3,840	3,893	3,657
Job Applicants, End of Month	8,335	8,768	7,138	6,589

Insured Unemployment Week of

New and Renewal Claims	Oct. 1 1963	Sept. 6 1963	Oct. 5 1962	Avg. 1st Oct. Wk. 1959-63
Unemployed Weeks Filed	479	517	495	796
Total Unemployed Claims	2,195	2,325	1,998	3,002
	2,674	2,842	2,493	3,798

men, 25 women). A variety of agricultural activities dominated the Sept. labor market. The potato harvest began, shipment of cattle and lambs kept stockmen busy, irrigation, summer fallowing, etc. kept others occupied. Labor supply adequate to meet present demands. Area construction work continues at a good clip.

GLASGOW, Fort Peck, Malta, Opheim—(142 jobseekers, 62 new, 35 men, 107 women). Area employment trends reflect optimism on both the industry and farm fronts. Over 300 employed in construction including air base projects, highway work, etc. Increased business at trade and service units reflects the results of good farm crops this year. Heavy farm labor demand throughout the month.

GLENDIVE, Circle, Wibaux—(98 jobseekers, 75 new, 41 men, 57 women). Labor demand fairly active in farm and industry during Sept. New shopping center in final stages of completion. One road project to start soon. Oil field activity steady but with little new hiring. Sugar beet harvest to be in full swing by Oct. 1.

GREAT FALLS, Choteau, Fort Benton, Stanford—(1,722 jobseekers, 724 new, 948 men, 774 women). New applications for work reached the highest level in four years as seasonal layoffs continued in most industries. Hiring by trade and service establishments as replacements for students returning to schools constituted most of the Sept. hiring activity. Employment at missile installations down to 120 compared to 3,300 last year when construction was in progress. Manufacturing trends remain firm but with a few cutbacks.

HAMILTON, Stevensville—(127 jobseekers, 68 new, 64 men, 63 women). Labor demand during Sept. was strongest in construction, logging, and trade and service industries. Work began on a \$105,000 school at Victor, new homes, and commercial remodeling projects. Hiring also began on several public works projects totaling \$165,000. Farm labor demand chiefly for hay hands and potato pickers.

HAYRE, Chinook, Harlem—(120 jobseekers, 32 new, 79 men, 41 women).

Hiring increased from last month due chiefly to increased demand for construction workers. New public work projects now just starting at two Indian reservations will employ 100. Trade and service trends not too active with only replacement hiring expected during the next 30 days.

HELENA, Boulder, Garrison, Townsend, White Sulphur Springs—(336 jobseekers, 224 new, 208 men, 128 women). Labor demand in trade industries rose sharply for staffing of various units of new shopping center. Activity relatively quiet in other industry segments with exception of lumbering where shortages of fallers continues. Farm labor demand fairly constant with adequate supply of workers.

KALISPELL, Columbia Falls, Eureka, Libby, Whitefish—(582 jobseekers, 333 new, 370 men, 212 women). Area economy shows good improvement with high levels of employment in construction, lumbering, and trade industries. Shortages of sawmill and woods workers existed. Brisk hiring noted at major Libby lumber mill. Expansion of aluminum plant facilities at Columbia Falls began, employing 15. Some decline noted in service industries as tourist traffic lessens.

LEWISTOWN, Harlowton, Ryegate, Winneti—(136 jobseekers, 103 new, 73 men, 63 women). Employment trends in industry and farm starting to decline in line with seasonal factors. Fairly active construction program in progress but very little new hiring. Economic outlook pales when compared with last year's high missile site construction activity, but rates favorably with other years prior to that time.

LIVINGSTON, Big Timber—(129 jobseekers, 52 new, 52 men, 77 women). Construction still a big part of the labor market picture despite some completed projects. Logging slowed somewhat during the month by wet weather. Trade and service employment adjusting to normal after tourist season. Very little railroad hiring. Farm hiring slowed considerably.

MILES CITY, Baker, Ekalaka, Broadus, Jordan, Terry—(167 jobseekers, 114 new, 87 men, 80 women). Economic

NINE YEARS OF MONTANA INDUSTRIAL EMPLOYMENT TOTALS, BY MONTHS (in Thousands)

Along the Hiring Line— Field Summary September 1

outlook appears favorable for next 2 months, sparked by good farm crops and prevalence of construction projects. Labor market situation compares favorably with last year despite less construction work this year.

MISSOULA, Drummond, Arlee, Superior—(1,006 jobseekers, 512 new, 684 men, 322 women). Employment now at peak in most major industries with steady trends expected to continue with favorable weather. Nearly \$22 million in highway, commercial and residential construction, currently in progress. Hiring in trade industries surpassed past years as new trade units opened. Declining tourist traffic caused some lay-off of service workers. Opening of sugar beet refinery on Sept. 30 will employ 400 for 3 months.

POLSON—(157 jobseekers, 52 new, 97 men, 60 women). Increased hiring over last year chiefly as the result of public work projects in area. Good trends hold in lumber industry with all mills operating at capacity. Only light construction activity. Farm labor demand quiet.

SHELBY—(96 jobseekers, 65 new, 55 men, 41 women). Job hiring shows moderate increase over last month and last year with continuing highway projects the major factor. Stable trends in trade, service, and oil field activities prevailed throughout the month. Farm labor demand at normal pace.

SIDNEY—(60 jobseekers, 76 new, 22 men, 38 women). Sept. labor demand spread over most industry groups highlighted by the start of sugar beet harvest and refining. Ten workers hired for opening of new retail store mid-October. Construction hiring also active. Main farm activities include sugar beet and potato harvests.

THOMPSON FALLS, Hot Springs—(53 jobseekers, 34 new, 34 men, 19 women). Some seasonal employment declines in evidence but labor market picture remains fairly active. Several new public works projects on schedule. Work continues on smaller building projects. Practically no farm labor demand.

WOLF POINT, Plentywood, Scobey—(67 jobseekers, 63 new, 41 men, 26 women). Mixed trends dominated the Sept. labor market. Construction employment climbed to a seasonal peak but declines occurred in trade, oil fields, and agriculture. Some upswing expected in oil oriented activities during Oct.

Statewide employment estimates revised on the basis of more complete reports. Industry detail for the period Jan. 1962 to date, will be supplied in a future supplement to this publication.

- (1) Estimates include all full and part-time wage and salary workers who worked or received pay during the pay period ending nearest the 15th of the month. Proprietors, firm members, personnel of the armed forces, domestic servants, and self-employed persons are excluded.
- (2) Preliminary estimates based on return from samples of 870 selected Montana establishments.
- (3) Figures previously released have been revised on return from 1,294 such establishments.
- (4) Includes fabricated metal products, machinery except electrical, furniture, stone and clay products.
- (5) Includes apparel, chemicals, and miscellaneous manufacturing products.

ESTIMATED EMPLOYMENT IN NON-AGRICULTURAL INDUSTRIES IN MONTANA (1)

(Compiled in co-operation with United States Bureau of Labor Statistics)
